Exceptional Service

If possible, please phone ahead to alert us regarding your pet's condition so that we can prepare for your arrival.

We value our relationship with your veterinarian and we know that she/he provides you and your pet with excellent care. Therefore, Oradell Animal Hospital will only treat your pet for the condition for which it was referred. We ask that you return your pet to your primary care veterinarian for all necessary routine care such as vaccines, heartworm tests, physical examinations, parasite control, other illnesses, etc.

We are grateful to you and your primary care veterinarian for entrusting us with the care of your pet.
