

Pet Insurance

Emergencies, injuries and illnesses can happen in the blink of an eye and are typically associated with higher costs for diagnosis and treatment. Pet insurance may be a good option because it reimburses you for unexpected expenses - all while reducing the stress of decision making during difficult situations

Oradell Animal Hospital's administrative personnel will complete pet insurance claim forms and email all necessary documentation to your insurance provider, including invoices showing all treatments. However, Oradell Animal Hospital will not accept or attempt to collect payment from your insurance company, except for the following insurance companies: Trupanion, Healthy Paws, and Pets Best. If you have one of these options for your pet's insurance, please request if you would like to use direct pay.

*Trupanion Special Offer
