CE Dinner with Dr. Max Randolph – Too Sweet to Not Treat: Diabetes Mellitus in Dogs and Cats

Join us for an exclusive Dinner Presentation with Dr. Max Randolph, proudly sponsored by Royal Canin. This CE/RACE-approved lecture will provide expert insights on diabetes management in pets in a relaxed, engaging setting. This is a unique opportunity to learn

Neurology Expertise — Just a Referral Away

Have a patient showing neurological signs? Our Neurology team is here to help with timely consultations and advanced care.

We provide comprehensive evaluations and treatment for a variety of neurological conditions, including seizures, spinal cord disease, vestibular disorders, and neuromuscular conditions. With access to advanced diagnostics and a collaborative team of specialists, we work closely with referring veterinarians to support the best possible outcomes for your patients.

If you have a case you'd like to discuss or a patient that may benefit from a neurology consultation, we'd be happy to help.

☎ To refer a patient or schedule a neurology appointment, please contact us at **201-262-0010 option**

from Dr. Randolph, who is dedicated to enhancing the well-being of our animal patients.

We look forward to seeing you, and thank you for being an important part of our veterinary community!

Hospital Updates:

Oradell Animal Hospital will be **upgrading our phone system** toward the end of April as part of our ongoing commitment to better serve you and your patients. We've been listening closely to your valuable feedback, and this upgrade is one of the ways we're working to improve communication and enhance your experience. Stay tuned for more updates on our new phone system, along with other exciting hospital announcements coming soon!
